Extensive Speculative Deal Inspected and Dealers Figure . on Probable Effect.

### NORTHERN SECURITIES AGAIN

Result of Meeting of Directors Enigmatical-State of the Money Market.

NEW YORK, April 11.—A nervous and apprehensive tone was reflected in the movements of stocks throughout to-day's mind were not manifest to any event in the public knowledge, but their influence upon the trading was nevertheless ef-fective. Actual events were in favor of values. It is the general supposition that an extensive speculative deal in the wheat rective. Actual events were in favor values. It is the general sipposition that an extensive speculative deal in the wheat market iz being conducted on parallel lines with large commitments to the long side in the stock market, and there was some dread that it would be necessary to throw over stocks to protect the position in the wheat market. The bolding of a meeting of the Northern Securities directors was another source of uncertainty. The results of the meeting proved to be enigmatical. The tardiness of the relaxation of the money market, expected after the April 1st settlements, is a cause of dissatisfaction to the speculative element, and led to-day to some offerings of Snance bills in the foreign exchange market, which induced a sharp decline in that market, in spite of the stiffening in the discount rate in London. The uncertain tone of the market was indicated by its constant fluctuations, the course of prices changing at least once during every hour of the session. The opening was decidedly strong, and there was another comprehensive raily after the first decline. Later in the day there were individual points of strength. Illinois Central was the conspicuous feature of the day, and it seemed to meet with fittle opposition on its swift advance. There was a disposition to give the day's factor to this stock as the chosen property designed for absorption on account of the Union Pacific preferred stock lesse, but the supposition was as lacking in authority as the various others on the same subject which here were all acking in authority as the various others on the same subject which here were all unchanged on call.

Bonds were irregular. To-day's sales, par value, £7,55.00. United States bonds were all unchanged on call.

The total sales of stocks for the day amounted to 1,121,000 shares.
